

Interview Sheet

Name	Oumer Hassen Awali	
Country	Ethiopia	
Organization	Ethio Telecom	
Title	Network PMO Officer.	

What did you learn in this training course?

How to provide telecom access for different scenario of rural areas based on the problem which the rural people faced in the step by step methodology of analyzing the problem, suggesting solutions , focusing in the specific actions to develop the whole proposal of the project.

What is the good point(s) of this training course?

Mainly The experience of the Chizu rural area of Japan , and the current situation of other countries participant problem in rural area :

What is your impression to ITU-AJ?

ITU-AJ is in my opinion , working closely with all operators , institution , to develop and maintain the telecom standard . I am really very impressed by the representative of ITU was always with us to follow/maintain the standards of the telecom.

What is the field(s) in which you are interested?

1. Rural area experience sharing visit in chizu town
2. Network planning for different scenario of rural area
3. PCM and PDM model for preparation of the project

Are there any Japanese organizations you would like to contact?

Yes : Panasonic : Because in my country Panasonic is widely known but like many manufactures don't have center in which make available any kind of new product or service, maintenance or spare.

May ITU-AJ transfer the e-mail from the organization which has interested in you or your organization to you?

Yes .
