Name	Thomas Seuao Tufuga
Country	Samoa
Organization	Public Service Commission

What did you learn in this training course?

I've learned some important solutions for bridging digital divide in rural areas during the course. These include effective use of ICT infrastructure and understanding the core problem. Throughout the course, new information & latest technologies were introduced and it was great to experience these innovations or solutions; so we can have the right resource or information for our projects.

What is the good point(s) of this training course?

The good points includes:

- Exposure to new ICT devices or technologies
- Experience the rapid ICT growth of Japan. Why? How?
- Learning from professionals/experts.

What is your impression to ITU-AJ?

They're genuine partners; they are trying their best to promote ICT in developing countries and I take-off-my-hat for that. Great and costly investment.

What is the field(s) in which you are interested?

I am most interested in developing of smart applications/software.
