

Name	SOKOTIA TAUFILO	
Country	TUVALU	
Organization	MINISTRY OF COMMUNICATION	
Title	ICT OFFICER	

What did you learn in this training course?

Appropriate ICT infrastructure that needs to be installed on rural areas and other important factors requires to be prepared by Government beforehand prior to bridge digital gap in my country

What is the good point(s) of this training course?

Recognizing the “unconnected to be connected” which was rural areas with no telecommunication services at all.

What is your impression to ITU-AJ?

I was impressed to see the mutual relationships between ITU-AJ and the telecommunication operators and the way they handles standardization of telecommunication services in Japan, also their most important contributions to global mobile system so called 4G LTE & Advanced with the rest of big countries in the world.

What is the field(s) in which you are interested?

The development of ICT infrastructure in rural areas by engaging telecom operators using so-called IRU scheme in order to connect the “last mile” zone. For instances Wazuka Town TV Project etc.

Are there any Japanese organizations you would like to contact?

NTT DOCOMO INTERNATIONAL SECTION & KANAGAWA INSTITUTE OF TECHNOLOGY (KAIT)

May ITU-AJ transfer the e-mail from the organization which has interested in you or your organization to you?

Of course yes so we can have the opportunity to begin mutual relationship between our local telecom operator and the Japan interested organization to connect “last mile”.
