Participant from Malaysia
What did you learn in this training course?
I learned a lot about standardization, strategy to standardized ICT infrastructure, how to manage R&D initiative
What is the good point(s) of this training course?
I think, the good point of this training course is the openness of Japan's Government and industry to share their technology and knowledge. It's very significant for me to bring back those information to our government so that we have ideas to embark some good initiative in ICT.
What is your impression to ITU-AJ?
Good and cooperative
What is the field(s) in which you are interested?
R&D management
Are there any Japanese organizations you would like to contact?
NICT
May ITU-AJ transfer the e-mail from the organization which has interested in you or your organization to you?
Yes
