|--|--|
| Name | Byambaakhuu Badamsuren |
| Country | Mongolia |
| Organization | Information Technology, Post, and Telecommunications Authority |
| Title | Senior ICT Officer |
| What did you learn in this training course? | |
| <p>This training course is composed of lectures and study tours. From the lectures I could learn and get familiar with latest ICT technology trends such as IoT, M2M, CPS (cyber physical system), SDN (software defined network), 5G requirements etc. The study tours are allowed me experiencing and getting information about ICT policy and results of R&D works at Japanese academic institutions and commercial companies. The lectures have provided me useful background for the above mentioned technology trends and how standardization activities are carried out in Japan.</p> | |
| What is the good point(s) of this training course? | |
| <p>Most good points are the followings:</p> <ul style="list-style-type: none"> - lectures from many different stakeholders such MIC, TTC, ARIB, NEC, NICT, NHK, NTT DoCoMo etc. - study tours for experiencing Japanese industry achievements and cutting edge technologies; - Tokyo tour and experiencing sight seen places; | |
| What is your impression to ITU-AJ? | |
| <p>It is my great thankfulness and appreciation to ITU-AJ for proving this opportunity of gaining knowledge and experiencing Japanese R&D and ICT technologies. In addition, it is good chance to experience Japanese culture and Tokyo city. On the other hand, ITU-AJ has put good efforts this course to be successful by organizing lectures and study tours, inviting distinguished researchers and academicians, and providing coordinators. Lastly, ITU-AJ has contributed to me to make new networking with the participants of the other countries such India, Solomon Island, Kiribati, and Myanmar.</p> | |
| What is the field(s) in which you are interested? | |
| <p>It would be wonderful if my organization, Information technology, post and telecommunications authority, can make close cooperation with Japanese telecommunications equipment vendors and cable companies for closing rural broadband gap in Mongolia as well as connect Mongolian domestic academic institutions with Japanese relevant institutions.</p> | |
| Are there any Japanese organizations you would like to contact? | |
| <p>I do appreciate if I can contact with fiber optic cable manufacturers and vendors.</p> | |
| May ITU-AJ transfer the e-mail from the organization which has interested in you or your organization to you? | |
| <p>Yes. I agree for providing my email to the organizations that has interest in my organization.</p> | |
