Name	Oyun Tsogtsaikhan	
Country	Mongolia	
Organization	Information Technology, Post and Telecommunications Authority	
Title	Director of Information Technology department	

What did you learn in this training course?

I understood the mechanism of how Japanese standardization organizations working closely each other and collaborating on standardization activities via both lectures and observations. Also training provided the PCM and PDM analysis method to overcome with facing challenges in our countries.

What is the good point(s) of this training course?

Training providing both lectures and practical observations at site which covering different stakeholders in standardization activity in Japan.

What is your impression to ITU-AJ?

I'm impressed that ITU-AJ has broad activities such as supporting ITU and APT meetings, providing informative publications and more importantly conducting various trainings to provide awareness of the standardization activities for developing countries.

What is the field(s) in which you are interested?

There are many interesting topics and fields we observed during the training. More specifically, I'm really interested in Smart cities (ISO/TS 37151 measurement of performance of community infrastructures) field. Looking forward to contact in term of collaborations and joint research on this field.

Are there any Japanese organizations you would like to contact?

During the training we visited ministry, manufacturers, and academia and standardization associations and exchange our name cards. Therefore, I want to contact with those organizations for possible further collaborations.

May ITU-AJ transfer the e-mail from the organization which has interested in you or your organization to you?

Yes
